

## Support Group Registration Form

The benefits of registering your support group with WPA include:

- You can raise money for your group by keeping \$5 of the \$30 membership fee paid by each person who joins WPA or renews their membership through your group. Send \$25 to WPA and the person will be a full member of WPA.
- You will get more information about homeschooling from WPA.

WPA may give the above information to interested parents who contact WPA for information about support groups in our area.

We are an organized support group and plan to collect WPA memberships from people interested in supporting both WPA and our group. (We will keep \$5 for our group and send the balance to WPA.) However, please do not give information about our group to parents looking for a support group. (This option may be preferred by groups that are currently too large to have room for new members, for example.)
